Location of Significant Changes in On – Street Parking

You may not be aware, but these two subdivisions were designed to accommodate parking on one side of the street only and this restriction is on the recorded Subdivision Plat referenced by your deed. The City will simply be placing signs to notify the motorists of these existing restrictions. The Traffic Committee has recommended that parking be restricted on one side of the street on all streets in the subdivision. Certain areas will have no parking on both sides due to entries, fire hydrants, and medians. The Department of Public Works will be installing “No Parking This Side of Street” signs.

The more significant changes are as follows:

- 1) Existing sign locations will be updated with new signage.
- 2) Additional signs will be added to the sides of the streets labeled “No Parking” to clarify intent and enforcement.
- 3) Cul-De-Sac bulbs will be signed “No Parking” to allow better emergency access. (w/ the exception of Rabbit Run Ct.)
- 4) “No Parking” will be posted 10ft either side of Fire Hydrants for emergency access.
- 5) Yearling Ct. will be “No Parking” on the south side.
- 6) Timberwood Trace will be “No Parking” on the west side.
- 7) Wilderness Cove Lane will be “No Parking” on the east side. (Elkhorn Green S/D only)
- 8) Fox Run Blvd. will be “No Parking” on the north side.
- 9) Elkhorn Green Place will be posted “No Parking” on the east side from the Entrance to Fox Run Blvd.

Thank you for your understanding in this matter and willingness to accept this change for the public’s safety.

If you have any questions, please contact Public Works at (502) 863-9855.
